## Increase Safety on your Dock!

Prevent loading dock accidents by proactively securing your trailer from landing gear collapse or failure

## Meets OSHA Recommendations

OSHA Recommends the use of trailer stands. They may prevent the upending of trailers during loading and unloading when trailers are not attached to a tractor or converter dolly.

## Durable Construction

Constructed of heavy gauge steel with all-weather wheels for maneuverability in all conditions. All units carry a full one year warranty against manufacturer defects.

## Ratchet-Riser Trailer Stands

- 100,000 lbs static load capacity
- 40,000 lbs lifting capacity
- 38" ratcheting/positioning handle
- Height adjustable from 39.5" to 51"
- Large 8" circular base
- 8" semi phenumatic rubber tires
- Weight 105 lbs
- Two units required per trailer

The Ratchet-Riser is an easy-to-use trailer stand that economically increases dock safety. The Ratchet-Riser can be used as a trailer stand (100,000 static load capacity), as well as a trailer jack (40,000 lbs lifting capacity).

To use, simply place the positioning handle into the receptacle and ratchet the trailer stand to the required height. The Ratchet-Riser has an adjustable height from 39.5" to 51"; Loading Dock Supply recommends using two ratchet-Risers per trailer.
