

MARK 12

Sealed Beam Rotating Beacon Light

Features:

- Large 12" rotating light
- Quiet belt drive, for simplified maintenance
- Anodized aluminum base prevents corrosion
- Five polycarbonate dome colors
- Optional model with independent light and motor power
- 115 VAC, 220VAC, 12VDC models

Description:

Tri Lite Inc.'s Mark 12 beacon is a large, high powered sealed beam warning light, featuring two PAR 46 aircraft style beams. The bulbs rotate on a quiet and smooth belt and pulley system under a tough polycarbonate dome. The light is mounted on an anodized aluminum base to seal out the elements and prevent corrosion.

This versatile light is perfect for lighting effects, indication of machine status or providing a warning. The Mark 12 is available in a variety of dome colors and in 115VAC, 220VAC and 12VDC models. The new Split model allows the user to independently power and control the lights and motor of the Mark 12 creating unique and custom lighting effects.

- Entertainment lighting
- Industrial alerts
- Machine status indicator
- Architectural warnings
- Weather alerts

Physical Specifications:

Height 12"
Diameter 12"
Flashes per Minute 85-95
Shipping Weight 12 lbs
Shipping Volume 1.57 ft³

Electrical Specifications:

AC Voltage 115 V
AC Current 0.6 A
DC Voltage 12 V
DC Current 4.54 A
Estimated Lamp Life 100 hours
Lamp Brightness 75,000 cp
