

Features:

- Bright halogen bulb
- Gear driven reflector
- Corrosion resistant plastic base
- Two base finish options
- Economically priced
- Dome locking ring allows for easy bulb changes
- Five polycarbonate dome colors
- Easy mounting
- 12 VDC only

Description:

The SW-1 offers a rugged rotating reflector beacon illuminated by a 50 watt halogen bulb in a low profile, eight inch housing. The halogen bulb's light is amplified by a gear driven parabolic reflector.

The SW-1 features a dome locking ring, which allows for easy bulb changes. The light is available in either a black or chromed plastic base, and in a variety of dome colors. With its sturdy three point mounting, this light is excellent for vehicles where visibility and simple mounting is critical.

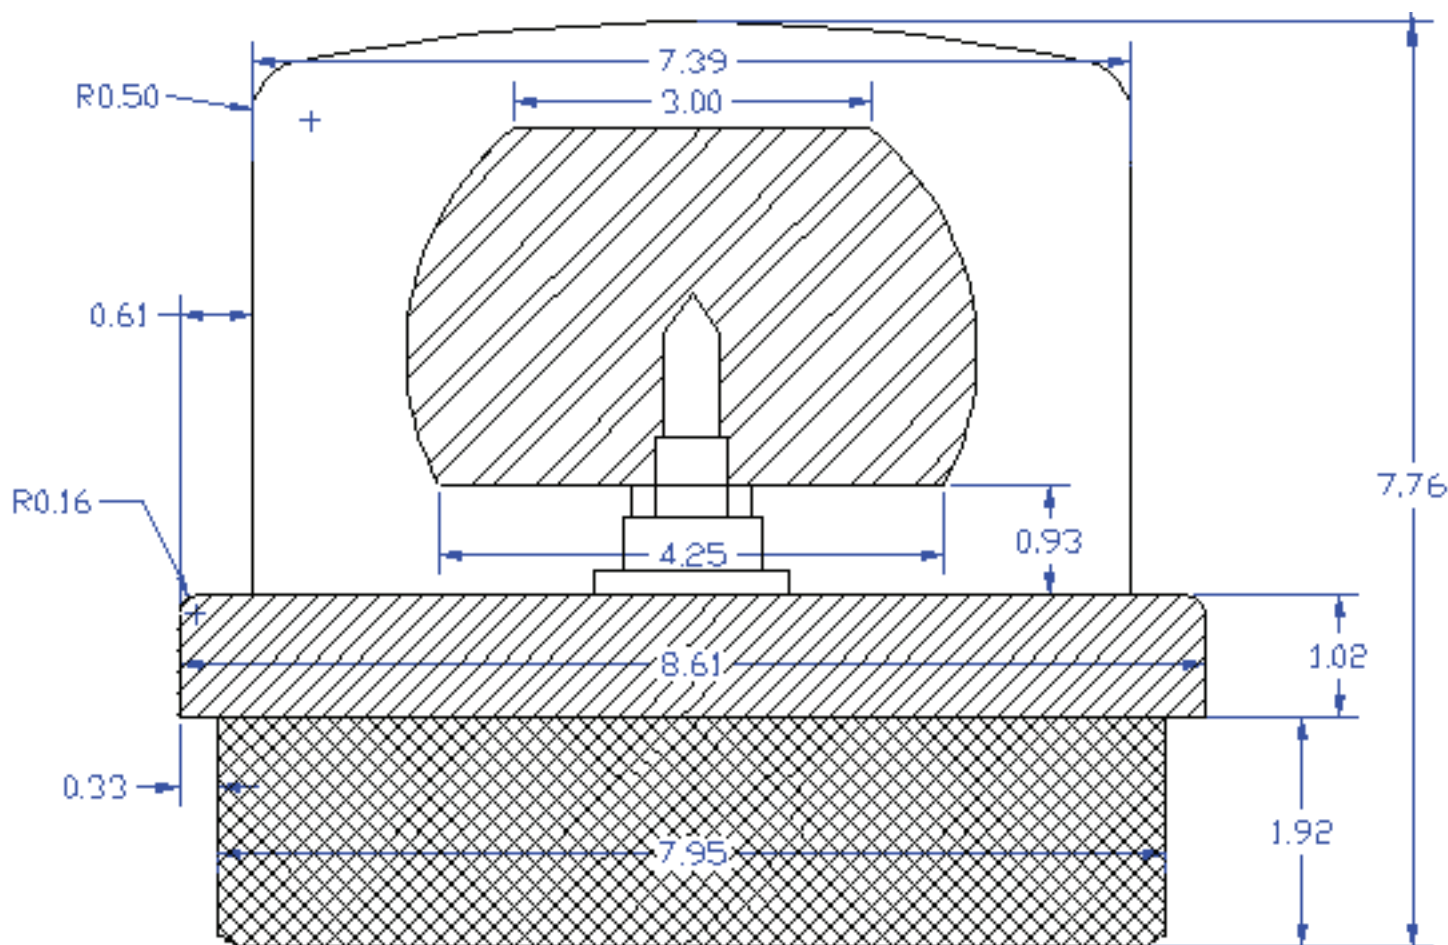

- Tow trucks
- Service vehicles
- Delivery vehicles
- Snow plows
- Construction equipment

Physical Specifications:

Height7.7"
Diameter8.6"
Flashes per Minute 65-75
Shipping Weight4 lbs
Shipping Volume0.77 ft³

Electrical Specifications:

DC Voltage 12 V
DC Current3.5 A
Estimated Lamp Life 200 hours
Lamp Brightness 108 cp
